Net Report

Article Last Updated:

October 7, 2004

Product Information

The Information in this article applies to:

Product:

Net Report

Version:

3.0 and Later

Net Report Answer

Yes. To do so, please follow the steps below:

Steps

1. Define several **Database Insert** actions each of them using a different data source and/or different database and/or different tables.
2. Define rules that will select one of the actions according to a criteria. For example the Firewall IP Address.

Status:

This behavior is by design.
