

## Your Question

### Article 00044

#### Question:

Can You Give Me A Brief Overview of Net Report's Company History, Product Overview and Supported Vendors?

## Net Report Answer

### Short History:

**2001:** Net Report was established.

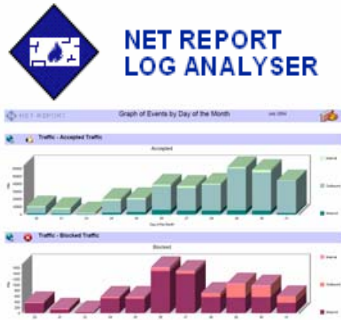

**2003:** Net Report acquired DataSet (founded in 1987), fusing together the wealth of knowledge and resources between the two companies.

**2004:** Net Report delivers to following two product lines:

- ❑ **Real-Time Information Management Solution**  
Net Report Products: Log Analysis Tools and Proactive Event Management
- ❑ **Business Intelligence Solution**  
DataSet products

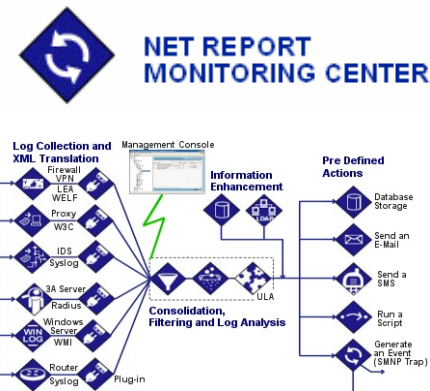

### Brief Product Overview

Net Report offers the following Real-Time Information Management Solutions:

An efficient Reporting Tool for analyzing your logs with adaptable and customized reports.

- ❑ On-demand Browsable Real-Time Dynamic Reports.
- ❑ Scheduled Static Reports.
- ❑ Support for many Devices and Applications:
  - ❑ Firewalls
  - ❑ Proxy
  - ❑ Web
  - ❑ Intrusion Detection
  - ❑ Anti-Virus
  - ❑ Radius Server
  - ❑ Others ( WMI, Syslog, ... )
- ❑ [Click here](#) for the complete list

A Real-Time Management Solution enabling proactivity on any event on your system. Net Report Monitoring Center centralizes, analyzes, alerts and reports the events/logs to one central point in the company.

The reactivity and flexibility of the Net Report Monitoring Center allows the company to respond to any new problems facing them: Log Filtering, Alarm Generation (Pop-up, Email, Trap SNMP, Pager and so on) and then allows for Customization of the reports (graphs, tables, charts, and so on). [Click here](#) for more information.

# NET REPORT
